

POOL MASTER

**A revolutionary outdoor blast system that uses the same technology as our vapor blast cabinets*

**A pump driven system that only requires 17 cfm of air*

**Because it requires minimal air it reduces equipment cost while producing excellent blast capabilities*

**Media and water is pumped to the gun while the air accelerates the media through the nozzle*

**Will not remove the glaze from the tile and allows for reuse of reclaimed media pool after pool*

**Removing calcium build up has never been easier*

KEEP THE SHINE WITH THE POOL MASTER
